043P **MAGIC CRUSCOTTO SPRAY PROFESSIONAL**

RENEWER AND POLISHER FOR DASHBOARDS AND PLASTIC SURFACES

Technical information

Special product fit to renew and polish dashboards, bumpers and any plastic part of the car. It is also suitable for wood and briar and for light-coloured internal parts, since it is a completely transparent product.

It restores the treated surface's brightness, is dust-repellent and its effect lasts 4-6 weeks. The product waterproofs the surfaces: for this reason it is suitable for bumpers, plastic sides and any part exposed to the inclemency of the weather (bikes, scooters, engines, boats etc.). Fit for old furniture, windows, leather arm-chairs, plastic chairs, office-furniture etc. Magic Cruscotto Professional is a good softener for plastic gaskets on car-doors. It is an excellent lubricant for locks and hinges and is also useful to remove creaking.

CHEMICAL COMPOSITION: Dimethylpolysiloxane, solvents, essential oils, propellants

PH: Not available.

DIRECTIONS FOR USE: Shake the vessel and spray the product on the surface. Keep a distance of 15 - 20 cm. Wait for few seconds and pass a cloth over the surface.

WARNING: pressurised vessel. Shelter from sun rays, do not expose to a temperature above 50°C. Neither pierce nor burn after use. Do not spray on a flame. Avoid direct inhalation and spraying into eyes. Keep out of the reach of children.

PACKAGE: spray tin size: 600 ml. (packed in cardboard boxes containing 24 units)
