055 POLINET

CONCENTRATED ALL-PURPOSE CLEANER

Technical information

POLINET is a concentrated powerful all-purpose detergent. The first-rate raw materials and the perfect mixture of its components make it suitable for several fields: car-cleaning, industry, community centres, nautical field etc.

The product may be used on several surfaces: Formica, kitchens, tiles, imitation leather, fabric, moquette, engines, canvas cloth, wood, floors, ovens, toilets, machine tools, boats, caravans and any washable surface.

The product is neither flammable nor corrosive. It is powerful to clean grease and smog deposit.

CHEMICAL COMPOSITION: Anionic non ionic surface active agents, emulsifying agents, sequestering agents, alcoholic solvents, sanitizing agents, perfume, water.

PH: ph 9,7

DIRECTIONS FOR USE:

The product must be diluted 1:5-15 with water (1 part of product - from 10 up to 40 parts of water). Test the right dilution in accordance with the type of surface to clean and the dirt to remove. Spray it on the surface, pass a sponge and dry with leather or a cloth. No need to rinse.

ADVICE: find the right dilution testing the compound on a small surface.

WARNING: *HIGHLY PHOTSENSITIVE ITEM, COLOURS CAN CHANGE WITH TIME, ALL THE SAME THIS DOES NOT CAUSE ANY CHANGE IN THE COMPOSITION.*

PACKAGE: canister size 60 kg. - 25 kg. - 12 kg.- 5000 ml. – ready to use pack.: cart.
12 pcs.x500 ml.
